

The advantages BVS has to offer:

- ✓ 24/7 availability
- ✓ New, replacement and exchange parts as well as general reconditioning and repairs for current, discontinued and legacy assemblies at fixed prices
- ✓ New-part sales promotions on legacy products
- ✓ Repairs with original components
- ✓ Functional and load test on original test stands
- ✓ Use of original packaging
- ✓ Free technical hotline
- ✓ Fully compatible HMI/IPC replacement solutions under our own unipo® brand

SIEMENS CNC and PLC automation solutions
 Our extensive portfolio

We have worked in close collaboration with the **manufacturer SIEMENS** since we founded the company in 1987.

Regardless of whether you require **CNC control systems** for your **machine tools and drive assemblies** to achieve maximum performance or **optimum solutions** for your **PLC** – we should always be your first point of contact. It makes no difference whether you are using **discontinued** and **legacy** series or the **latest generation** of automation technology products from **SIEMENS**. With our extensive range of services consisting of

general reconditioning and repairs, the exchange and **sale of replacement and new parts** for a variety of product lines from **SIEMENS**, you will receive everything from a single source and always at **fixed prices**.

We will be happy to help you with any **technical problems** should any of your **SIEMENS assemblies** “go on strike”. We offer **support over the phone** as well as a **direct on-site service** so that you can get your machine up and running again as quickly as possible.

Available for you around the clock

Quality makes the difference.

Q/UM-D: FL 5.3.2.156v3 *Please refer to our general terms and conditions for warranty details.

You have access to over **1,000,000 assemblies** around the clock - **24/7**. The assembly is delivered in **original packaging** with ESD protection to ensure safe despatch to you. We also have Siemens **new part stocks of products** that have already been **type-coated** and are no longer available from the manufacturer in this form.

All assemblies that you send to us for repair undergo a comprehensive **product overhaul** in which **original components** are always used. This enables us to offer you a **24-month warranty*** on all **repairs, replacements** and **spare parts deliveries**. The final **function and load tests** are carried out on original test benches to ensure that they can be used in everyday operations.

We also offer **fully compatible replacement solutions** from our own unipo® brand for existing **HMI/IPC applications** from the manufacturer **SIEMENS**.
