We purchase your assemblies, controllers and all-in-one systems

Are you looking for a simple and profitable way of recycling your **CNC, PLC and ROBOTIC assemblies, all-in-one systems and controllers?**

If you have modernised or converted your machine park and are looking for a way to utilise your surplus assemblies, BVS Electronics is the right partner for you. We'll **purchase your assemblies, controllers and all-in-one systems** that you no longer require – regardless of whether they are **functioning**

or **faulty**. In addition to standard purchases **on account**, we can alternatively provide you with a **repair voucher**, which you can redeem with your subsequent orders. Should we be unable to use your assemblies, we will dispose of them for you, free of charge.

Check your stock for any faulty assemblies and get in touch with us. A prepared quotation form can be downloaded from our website, simply enter the order numbers and send to ankauf@bvs-electronics.com.

Our purchase team will be happy to help you
