

**The advantages  
 BVS has to offer:**

- ✓ Specialists experienced in CNC, PLC and ROBOT automation technology
- ✓ Support in finding faults – over the phone or on site
- ✓ Free technical service hotline
- ✓ Use of professional and modern diagnostic tools
- ✓ Individual exchange assembly set for recommissioning machines

**Free technical service hotline**  
 Even small matters need to be resolved

Has your machine broken down and you do not know what the problem is? Or have you detected a technical fault on your industrial electronics and cannot resolve the fault yourself?

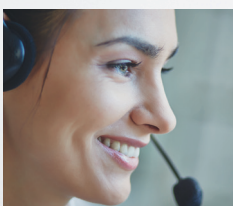

In such cases, you can use our **free technical service hotline**. Our experienced technicians will generally be able to help you to immediately **identify** or even **resolve** the **error** over the phone. If this preliminary

diagnosis does not help and the source of the error cannot be properly identified over the phone, we'll send a **service technician** to your site on request.

Please note that in contrast to our 24/7 hotline, our free technical service hotline is only available on weekdays between **07:00 a.m. and 6:00 p.m. (CET)**.

**Our sales team will be happy to help!**

**+49 6181 95404-200**
