

Your advantages with BVS:

- ✓ Ensuring serviceability up to the agreed date
- ✓ Reduced failure rate and system downtime
- ✓ Drastically reduced costs compared to a retrofit
- ✓ Increased production reliability
- ✓ Extended machine service life
- ✓ 24-month warranty* on the complete assembly with REMAN+ (optionally extendable to 60 months)

Ensure serviceability for ECODRIVE03 and DIAX04 now!

The products in the **ECODRIVE03** and **DIAX04** series have been successfully on the market for more than 20 years and are now being phased out. You should therefore already be thinking about a hedge today.

Does your current production capacity utilisation not permit a preventive system shutdown? Then we can offer you a reactive method of safeguarding your service capability with our **Long Life Service**.

Work with us to ensure the serviceability of your assemblies with REMAN+ or the Long Life Service!

With the **REMAN+** product overhaul and the **Long Life Service**, BVS Electronics offers you two options as part of your obsolescence management to ensure the serviceability of these products and the resulting system availability in the future.

Think about protecting your **ECODRIVE03** and **DIAX04** series today and benefit from these additional services with your next order. With preventive **REMAN+**, we offer a state-of-the-art service that allows you to maintain the electronics of your systems instead of repairing them reactively. Does your current production capacity utilisation not permit a preventive system shutdown? Then we can offer you a reactive method of safeguarding your service capability with our Long Life Service.

With the preventive **REMAN+**, we offer a state-of-the-art service with which you can maintain the electronics of your systems instead of having to repair them reactively.

BVS Electronics GmbH
 Repair | Sales | Service
 Electronics for **CNC, PLC & robots** and **renewable energies**
 Margarete-von-Wrangell-Str. 18 · 63457 Hanau

Quality makes the difference.

*Please refer to our general terms and conditions for warranty details.

Product overhaul REMAN+ - preventive method

- **Preventive replacement** of all components that are subject to ageing or increased wear and tear
- **Replacement of all components** that are identified as weak points and therefore represent a safety risk for the machine and its operator
- Exclusive use of **new components approved by the manufacturer**
- **24-month warranty*** on the complete assembly (optionally extendable to 60 months)
- **Securing service capability** through:
 - Stocking repair materials
 - Securing repair equipment
 - Securing repair expertise
 - Securing documentation

Long Life Service - reactive method

- **Reactive protection** of the „installed base“ or **ensuring your system availability** without active intervention in your running machines
- **Securing service capability** through:
 - Stocking repair materials
 - Securing repair equipment
 - Securing repair expertise
 - Securing documentation

Your advantages with BVS:
