

So that your robots will still be working for you tomorrow.

The advantages BVS has to offer:

-  **Very attractive prices**
 We can supply modules at prices far below the manufacturer's list prices.
-  **All from one source**
 We provide you with comprehensive maintenance services and other services for current and discontinued robot control technology for manufacturers FANUC, KUKA and ABB.
-  **Exclusive use of new components authorised by the manufacturer or the legislator for repairs**
-  **Function and load tests on original, manufacturer-specific robot test stands**

Have you already heard?
BVS provides extensive services for robot systems of the ABB, KUKA and FANUC brands.

Robotics test stand

In addition to robot teach pendants, BVS is now offering all modules for robot systems of **ABB, KUKA and FANUC** (e.g. drives, IPCs, power packs, motors, cables to name but a few).

We support the control electronics modules of the most important robotics manufacturers with over 2000 different articles. Check out our wide range of robotics products in our online shop: shop.bvs-cnc.com.

We know a thing or two about **ROBOTICS** – and demonstrate it with customary high-quality **BVS service** at fair prices.

Teach pendants

Controllers, inverters/
 servo amplifiers & power packs

Industrial PCs

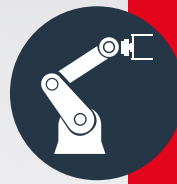

Available for you around the clock
